

Environmental Policy Statement

The company is committed to conducting its business operations in a environmentally responsive manner and recognises the need to continually improve its operations, where practicable, in order to further reduce its effects on the environment.

In order to achieve these overall objectives, the following policy has been adopted:

- To identify and use materials/processes that reduce the risk to the pollution
- To promote natural resource conservation by the efficient use of energy and the minimum use of raw materials
- To minimise discharges, emissions and waste and their environmental effects, including maximisation of recycling
- To set environmental objectives and targets against which to measure improvements of environmental improvement
- To ensure compliance with environmental legislation
- To document procedures and continuously monitor progress in environmental performance through regular measurement, review and audit, utilising a management system compliant with ISO 14001
- To ensure that all employees are made aware of environmental issues through a programme of training relevant to their roles.
- To provide information on environmental performance to all interested parties
- To review the Environmental Policy and arrangements at least annually
